

MAPLE LEAF FAMILY TERRACE

TOTS 2-5

KIDS 5-12

BUILT PLAY

The Berger Partnership PS
Landscape Architecture

What is important to you & your family when it comes to the Built Play area?

These are potential playground equipment samples to give you a feel for what is possible, not EXACT samples. The samples on the left are for **Tots (age 2 to 5)** and the samples on the right are for **Kids (age 5 to 12)**. If you like the look of one of these, you can use the number as a reference, then say why you like it (the look of it, what features would you like to see, do you want slides, swings, climbing options, platforms, balance beams). **What do you prioritize?**
